SUMMARY

Software Programmer with 5.1 years of experience building scalable Laravel/PHP backend services, REST APIs, and platform integrations for e-commerce and email marketing. Skilled in Magento, WooCommerce, Klaviyo, and email provider APIs, with hands-on work in React, Next.js, Livewire, and FilamentPHP. Focused on performance optimization, caching, and maintainable full-stack delivery.

EXPERIENCE

Software Programmer

TargetBay — Chennai, India | Jul 2023 – Present

- Designed and maintained scalable backend services using Laravel and PHP.
- Developed integrations with Magento, WooCommerce, Klaviyo, Gmail, Outlook, and Google Postmaster.
- Improved application performance through query optimization, caching, and data-processing pipelines.
- Built APIs and backend workflows supporting large-scale email marketing and e-commerce operations.
- Developed internal tools and user-facing features using React and Next.js.
- Leveraged AI-assisted development tools including GitHub Copilot, Cursor, Claude, and Windsurf.

Web Developer

Synamen Thinklabs Private Limited — Chennai, India | Jun 2021 – Jul 2023

- Built and maintained web applications using Laravel and Yii2.
- Developed REST APIs and backend services for internal and customer-facing applications.
- Worked with Livewire, FilamentPHP, JavaScript, jQuery, Bootstrap, HTML, and CSS.
- Participated in the full software development lifecycle from requirement analysis to deployment.
- Gained experience in database design, authentication systems, package integrations, and Razorpay payments.
